

Task_2

Push the images created in Problem 1&2 into your docker hub repo

1. Create a Docker Hub Account

If you don't already have one, create an account on [Docker Hub](#).

2. Log in to Docker Hub

Use the Docker CLI to log in to your Docker Hub account.

```
docker login
```

You will be prompted to enter your Docker Hub username and password.

3. Tag the Docker Image

```
docker tag ubuntu-sleeper ibrahimmohamedzaghloul/ubuntu-sleeper:latest
```

4. Push the Docker Image to Docker Hub

```
docker push ibrahimmohamedzaghloul/ubuntu-sleeper:latest
```
